

Visual & Performing Arts

Arts Tours

Our music students have been involved in state, interstate and overseas tours and music festivals. Every two years, Westminster participates in the National Music Festival where our students join eastern state schools in a four day music workshop culminating in a performance.

SCHOOL TOURS

In the past, the School has offered the opportunity for sporting and cultural tours, both interstate and overseas. As well, Westminster School hosts a series of cultural and sporting groups during the year. Music tours over the most recent years have taken us to Japan and England and provide excellent opportunities for our student ensembles to learn and advance. Visual arts students have travelled to interstate exhibitions, and have travelled to the USA to visit and study at some of the world's best exhibitions and galleries. They have also travelled to Europe to see galleries in Paris.
