

Web based log in via School Star or <https://engage.westminster.sa.edu.au>

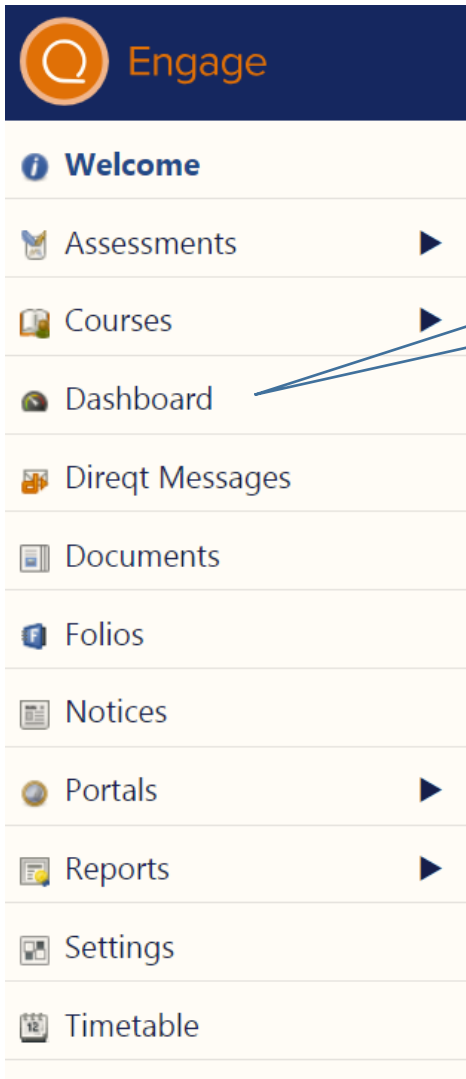

This is where you can access your son/daughters upcoming assessments. They are under the various subjects, or upcoming shows the whole group.

To view grades for marked work, go to each subject and the results and feedback will be visible.

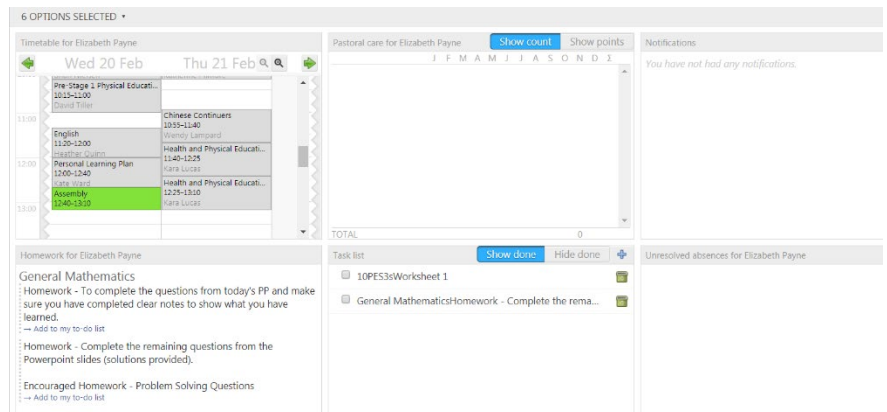

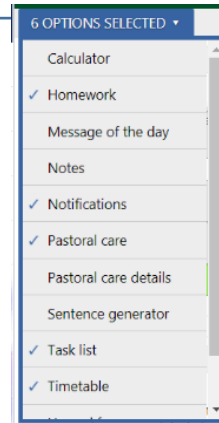

Courses - this is where the content and homework can be found within each course your child is enrolled.

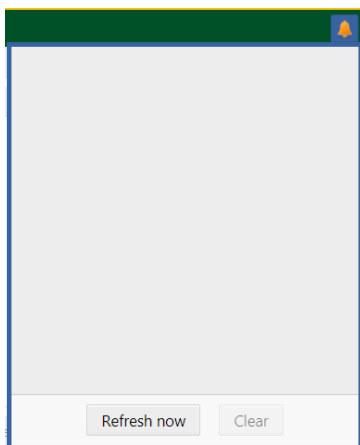

Dashboard is where you can see your son/daughters homework, timetable, unresolved attendance, by selecting the options from the menu at the top of the screen. Pastoral care notifications for positive and negative behaviours will also be shown here.

Direct Messages is where you will receive correspondence just like emails and messages sent from students about your son/daughter.

The other menus will be populated over time as your child progresses through Westminster and builds their SEQTA profile.

The top right has a bell which shows notifications you receive about grades and messages. These will be sent via email after seven days if you do not look at the notifications.

The App has the same menu system but allows push notifications to your phone.

Great + Attitude = Gratitude
